103 N. O. spec. (Louisville passenger only)	1:27 am

Nov. 2, 1915. W. G. CRAWFORD, Act.

### Local Mention.

We are to have oiled streets.

Fourth of July is the next national event.

Zelphia Morehead, of Earlington, is visiting Miss Lucile Green.

Miss Lucile Kirkpatrick is visiting friends in Russellville.

The interior of the Methodist church is being remodeled.

Mr. McKinley Poole visited relatives and friends in Penrod last week.

It is planned to have a union Sunday school picnic here the Fourth.

Baby carriages, 1915 models, new features and prices, at Roark's.

Mr. Harry Dean was in Owensboro the latter part of the week.

Miss Gladys Gates, of Kirkmansville, visited the family of Dr. Grace Sunday.

Our people formerly feared the June frosts, but we do not dread them now.

Mr. and Mrs. O. G. Dempsey are entertaining a boy born Friday.

Read the notice about harvest hands wanted in the west in this issue.

Mr. Rex Smith of Penrod is spending a few days with Willard Kirkpatrick.

Messrs. Frank Lovell, Russell Ford and David Fleming were in Central City Sunday.

Grounds have been secured and cleaned and we will doubtless soon have some baseball.

Mr. James Tinsley left Monday for Oklahoma where he will remain throughout the harvest season.

Mr. and Mrs. O. C. Roll spent the week end with their daughter, Mrs. Yonis, at Princeton.

Mrs. Minnie Martin and daughter Miss Mary, motored to Madisonville Monday to spend the day.

Mr. and Mrs. Fred Tribby and two sons, of Graham, visited the family of Mr. C. P. Morton Sunday.

Mr. Joe Cornelius and family of Linton, Ind., visited the family of Mr. H. D. Ezell the latter part of the week.

Mr. Shelby Hendricks returned Saturday from Corbin, Ky., where he has been with the Y. M. C. A. for the last year.

Miss Mary Martin, who has been in Ward Belmont this winter, has returned home to spend the summer.

The old saying to "make hay when it shines" can hardly be put now on account of the lack of shine.

Mr. and Mrs. C. W. Roark, Mr. J. W. Lam and Mr. and Mrs. J. O. Meredith attended the Eades-Collins wedding at Kuttawa last night.

LIV-VER-LAX, the liver regulator, ask G. E. Countzler.

### Show Horses Are Attached.

An attachment was issued today on two horses used by the advance agent of Rice Bros' Great Road Shows. The attachment was issued on the complaint of T. R. Daniels of Central City who had sold the agent some flour to make paste to post his bills, but it happened that the flour was resold by the agent and the money put to a more convenient use. He gave a "cold" check in exchange for the goods on the treasurer of the show who refused to honor it. A claim for the feed bill of the horses has also not been paid, so they will doubtless spend a few more days with us than was anticipated.

City marshal Dennis sold the old city lock up and lot at public auction last Saturday, Mr. K. M. Dexter being the highest bidder at \$120. The building is of brick, and substantial, and is located on a lot 27x30 feet. The lot cost \$75, the building \$600, and there is a bored well on the lot that cost \$800. So Mr. Dexter bought a bargain.

Wanted—Partner with \$600 in excellent county right proposition. Splendid possibilities. Full investigation. Address W. S. 308 Inter Southern Bldg. Louisville, Ky.

### Drouth Getting Bad.

The prolonged drouth has become a very serious question all over the county. The farmers are at a standstill as no work can be done on account of the dryness of the soil. Not only are the farmers affected but business in general. Unless rain comes at an early date there will be practically no tobacco crop and as this is one of the staple products in this section of the state its shortage will be felt keenly by everyone.

Hon. J. Virgil Chapman, of Simpson county, candidate for the Democratic nomination for Congress in this district, was mingling with Muhlenberg county voters last week, and made a very favorable impression with our people. He is making a thorough and active canvass of the district, and is meeting with generous support, he declares.

### Clean Up!

Now is the time to save dollars. How? By cleaning up your premises, draining your stagnant ponds, and destroying all things which are breeders of typhoid germs. One or two cases of fever will cost the town more, from a financial standpoint than several cleanings and at the same time a clean up will add greatly to the beauty of our city. So let's all help to practice that old adage that "an ounce of prevention is worth a pound of cure."

### Succeeds With Strawberries.

Mr. Dave Spurlin, who lives about one mile east of town, has proven that the raising of strawberries in this county might prove very profitable if conducted along the right lines. His trial of this industry netted him one hundred and eighty dollars this season. Mr. Spurlin grew six hundred gallons on two acres in its normal condition and after fertilizing one twentieth of an acre it yielded him forty four gallons which would make eight hundred and eighty gallons to the acre. This isn't half bad for old Muhlenberg.

Messrs. Steven Lemont Pannell and Wallace Duncan Hamilton have returned from Lexington where they have been in school. Mr. Pannell received his degree in the Arts college and Mr. Hamilton received one from the college of Law. Both of these young men intend to start the practice of law at an early date.

### School Bonds Are Voted.

At the election held here last Saturday, on the question of voting bonds for the overhauling of the old school building, there were 327 votes cast for the bonds, and 36 against. One of the features of the election was the heavy woman vote, and the fact that only one or two women voted against the measure. Every large taxpayer was enthusiastic over the voting of the bonds, and it is estimated that 90 per cent of the taxpaying vote was cast for the improvement. Several car owners very thoughtfully placed their cars at the service of the voters, and many persons were thus permitted to vote who otherwise might not have gotten to the polls or would hardly have come on account of the heat and distance.

Union services were held at the Presbyterian church last Sunday night conducted by Rev. A. S. Crowell. Rev. Crowell preached a strong forceful sermon, he was given a most hearty welcome by our people.

### Hon. Newton Belcher Announces His Candidacy For Congress.

Notice has been received of the announcement of Mr. Newton Belcher's candidacy for Congress from the Third District, subject to the action of the Progressive Party. Mr. Belcher was endorsed by the Executive Committee in session at Bowling Green. He intends to make a vigorous campaign and should prove a strong contender for the office, as he has been active in politics in this section of the state for some time and has a host of friends who have pledged him their support in his coming race.

Mr. Orien L. Roark, who has been in Dawson Springs with the Kentucky Press Association, is now in Louisville attending the annual meeting of the Funeral Director's Association which ends its sessions tomorrow.

### Death of Mrs. Nancy Elizabeth Stuart.

Mrs. Nancy Elizabeth Stuart, in her 72nd year, died at her home near Graham at 6 o'clock last Thursday morning, from afflictions incident to her age. She was a native of the county, and one of our most widely known and deeply loved women. She survived by five children all sons, Messrs. Tom, James, John, Ed and A. B. Stuart, all of whom live in the county, and are prosperous, useful citizens. Funeral services were held at Old Bethel church, of which she has long been a faithful member, at 2 o'clock Friday afternoon, and a large number of persons were in attendance. Rev. Wm. Woodson, the pastor, delivered a sermon, and interment was made in the cemetery at the church.

Lost—Last Saturday night, on Main or East Main-cross street, two ladies' rings, one small diamond set, other with three opal settings. Liberal reward for return to this office.

### Eades-Collins Wedding.

Miss Annie Eades, daughter of Mr. Wm. Eades, of Kuttawa, was married last night at the Baptist church in Kuttawa, to Mr. Tate Collins of Tennessee. The bride has visited in our town on several occasions and has made a host of friends who wish them much happiness.

Mr. and Mrs. Netter Atkins and daughter Ezma and Mr. and Mrs. Finis Mercer and daughter Lela motored up from Depoy Sunday and spent the day with the family of Mr. C. P. Morton.

Private subscriptions have been secured to provide a 6,500 gallon car of road oil, and Main street from Hopkinsville to depot will be given a coating. The work of cleaning and repairing the streets is being rushed, and it is thought the oil will be here by the first of next week.

Now that we have granted a free franchise, we are expecting speedy action on the part of the promoters of the Central City, Greenville and Drakesboro electric railroad. Everybody is in favor of the building of this road, and we all want it as soon as it can be constructed.

The cornet band boys have been generous lately in responding with their services to the public. They have given quite a number of concerts for public gatherings, and without cost, donating their services for the public good.

### Automobile and Building Total Fire Loss.

An alarm of fire about 2:30 o'clock last Sunday morning drew a large crowd to the home of Judge R. O. Pace, but too late to save his automobile or the building in which it was stored, as the flames had accomplished their destruction. The car had been used the evening before, but had been stored by 7:30, and at 11 o'clock, when the family retired, there were no signs of fire. It is thought the fire was of incendiary origin, but no clues have been divulged. It was at first proposed to secure blood hounds, but as there had been scores of people about the place, from all directions, it was concluded that no evidence could be thus obtained, and the plan was abandoned. There was insurance to the amount of \$1,800 on the car and building, which fairly covers the loss.

Mr. A. E. Ewan, the agriculturist from the Experiment Station at Lexington, is here looking over his farm near town and reports exceptionally good crops in spite of the drouth.

### Sawmill Burns at Bakersport.

The sawmill of Mr. John Myerhofer, at Bakersport, was burned last Wednesday night, the plant being totally destroyed, with a loss of about \$12,000, on which there was \$5,000 insurance. There had been no fire around the mill for some days, as the plant had been shut down for overhauling while Mr. Myerhofer was away on a business trip. It is thought the fire was of incendiary origin, but no clues have been discovered, or at least given out. This is the third fire Mr. Myerhofer has suffered, and always with heavy loss. He had allowed \$2,000 of his insurance to lapse only about a month ago. It is likely that he will rebuild at once, as he has a vast amount of timber and logs bought.

It is a little late, but along Main street will be one of the best things done here in a long while. Let the good work go on.

Mr. J. F. Miller, of Rockport, bought a Ford touring car from J. C. Gilman Monday. This is the twelfth car this enterprising concern has sold this season and the outlook is good for many more sales.

Mrs. A. B. Cox, of Elkhon is visiting Mrs. C. A. Denny.

Mr. Chas. Lovell returned from school, at Lexington, last week and has accepted a position for the vacation with Mr. Henry Cundiff, at Drakesboro, where he works in Mr. Cundiff's store.

John Underwood and Fred Jones, of Penrod, were in town Monday.

### The Outstretched Palm.

Americans who have traveled in Europe report feelingly that a hearty welcome awaits any one there, particularly Americans. Nearly everybody, they say, has his hand out. However the outstretched hand has the palm up. The inescapable tip, in brief, is the bugbear of travel in Europe, so these pilgrims assert. A similar impression with respect to the United States seems to have been gained by not a few Australians. Now a steamship Co. centering in San Francisco is doing the nation service in attempting to dispel the idea. It gives a scale of tipping rets to which the visitor from Australia or any other foreign shore might well adhere. This includes the 10 percent rule for restaurant or hotel cafes, 5 or 10 cents for bellboy's services, 10 cents for barbers and so on. If a traveler in this country or others must give gratuities—and it seems to be conceded he must—he should not be the object of frowns and dog looks if he confines himself to some such moderate scale.

Meanwhile it would do wealthy Americans no harm to think of the harm they are doing by spoiling hotel porters and waiters with lavish fees, thereby depriving others who tip moderately of good service and sometimes of respectful treatment. Such people ought to know that giving extravagant tips is a sign of ill breeding.

Mrs. Jennie E. Roark and Carol Jonson and Mary Elizabeth Roark have returned home, after a visit of a fortnight with relatives in Owensboro and Russellville.

G. E. Countzler is headquarters for LIV-VER-LAX.

### Harvest Hands wanted in the West.

The Division of Information of the Bureau of Immigration, U. S. Department of Labor, has received telegrams from Kansas, Missouri, and South Dakota concerning the need of harvest hands in those states in addition to the request from Oklahoma which appeared in bulletin dated May 27, 1914.

Persons interested in obtaining work of this kind should apply to the offices in states named.

It will be necessary for those desiring work to defray their own expenses to place of employment.

### KANSAS.

40,000 men needed; wages will range from \$2 per day and board, average probably \$2 50. Large percentage of men will be needed 90 or 120 days. Men go direct to towns in wheat belt in central and western Kansas and be distributed to farmers by local organization, or write to W. L. O'Brien, Director, State Free Employment Bureau, Topeka, Kansas, for directions.

### MISSOURI.

30,000 men needed; wages \$2 to \$3 50 per day according to experience, class of work and conditions; three to six months' work, beginning about June 15. Apply to State Free Employment Offices at St. Louis, Kansas City, or St. Joseph, or write to: John T. Fitzpatrick, Labor Commissioner, Jefferson City, Mo., for directions.

### SOUTH DAKOTA.

Harvest help needed beginning about July 14; wages \$2 to \$3 50 per day and board. Considerable of the former wheat acreage is now in alfalfa and corn, and help will be needed through husking. Apply to Charles McCaffree, Commissioner of Immigration, Pierre, S. D.

A concrete gutter is being built on Main-cross street, from the Y. M. C. A. building to the Main street corner, and this will vastly improve the appearance of the north side of court square.

### Indigestion.

Indigestion is a trial that a great majority of the human race have to bear at some time or other. Infants are extremely subject to it, and the care of the digestion of the newborn has become a very important part of medicine. That care can be intelligently taken because babies are at the mercy of adults: their food can be analyzed, and measured, and doled out to them with an authority that few grown up persons would submit to. When babies have become children, we do not hear so much about their digestions. If ordinary care and common sense are exercised, the digestion of most children will take care of itself, for the incessant physical activity of children keeps the digestive functions in a healthy state.

When an adult suffers from constant trouble with the digestive apparatus, it is necessary to discover the exact cause; otherwise the treatment may be misdirected. It is a good plan to chew thoroughly, for example, but chewing will not prevent indigestion if you are eating the wrong kind of food. If your digestive organs will not act on lobster, they will refuse small pieces as well as big ones.

Sometimes tight clothing—belts, corsets, or skirt bands—is the real cause of defective digestion. When that is so, it is no use to take digestive tablets. The organs have not enough room in which to do their work properly, and the tablets can give only temporary relief.

But no one need despair of his digestion until he has tried faithfully the expedients of an erect car of the body, the careful mastication of every mouthful of food, and the habit of deep breathing.

To those practices, which he must follow regularly and persistently, he should add a system of exercises designed especially to aid digestion—that is to say, exercises that involve the trunk and the large abdominal muscles. The best results are attained by twisting and bending the body back and forth, and stooping over—especially by bending the body from the waist and touching the toes with the finger tips. As the most useful exercises of that kind can be practiced without apparatus, they are within reach of everyone.

Furniture for hot weather at Roark's.

Typewriter ribbons, paper, supplies of all kinds; for any machine—this office.

Summer furniture at Roark's.

Whenever you see an Arrow think of Coca-Cola.

## Finish This Story

WORKMAN in an IHC wagon factory was explaining the various stages of wagon construction to an interested visitor. He picked up two pieces of long leaf yellow pine, and asked the visitor to notice the difference in the weight of the two pieces. The lighter piece, he explained, was kiln-dried. The heavier piece was air-dried. He had retained the resinous sap which adds strength and toughness, while in the kiln-dried piece of lumber this sap had been drawn out by the too rapid application of heat.

## Every Stick of Lumber Used in IHC Wagons Is Carefully Selected, Air-Dried Stock

Here was something to think about. The visitor asked for a test as to the relative strength of the two pieces of wood. The air-dried piece held up under nearly double the weight under which the kiln-dried piece of lumber broke.

To the eye there was no difference between these two pieces of lumber, but when put to the test there was a vast difference. So it is throughout the construction of IHC wagons—Weber, Columbus, New Bettendorf, Steel King. They are built for real strength, light draft, and satisfactory service.

Weber and Columbus wagons have wood gears. Steel King and New Bettendorf have steel gears. For literature and full information regarding the IHC wagons best suited to your work write our nearest office.
